Traduction simultanée en Français

The scientific program will include clinical case sessions, poster sessions, free paper sessions, and 14 faculty sessions dedicated to exudative AMD, vein occlusion, diabetic maculopathy, myopic maculopathy, uveitis, and much more. MaculArt 2017 will also give the opportunity to highlight innovations, hot topics and new imaging such as OCT. We are also pleased to host a panel of international experts which will provide a forum for retina thought leaders to present data and engage in a lively discussion.

ABSTRACT SUBMISSION DEADLINE: 27 FEBRUARY 2017 • EARLY REGISTRATION DEADLINE: 15 APRIL 2017
